Dear Selene:

We are getting close to finishing the update to the PFOS document. I have the feedback from John that we need to move forward. Last week I was diverted to other projects but hopefully will get back to PFOA this week.

Joyce.

Now I remember!. I was pretty sure I would not be able to attend because I had put in for the Gordon Conference on Disinfectants and disinfection by-products in August.

Dr. Jamie Strong from the IRIS program has joined us as the branch chief to replace Beth.

I have been working to help with some cyanotoxin documents that were in process within our division. I now have to get back to working on PFOS and PFOA.

Subject: [fluoros2015] FLUOROS 2015 Abstract Submission and Registration is Now Open!

Greetings from Colorado!

Registration and poster abstract submission for FLUOROS 2015<<http://igwmc.mines.edu/Fluoros.html>> is now open! We are still working on finalizing the list of invited speakers, but we wanted to open up the poster abstract submission and registration process for those that will need extra time to plan their travel to Colorado. If you are interested in attending FLUOROS 2015 and would like to present a poster on your research on poly-and perfluoroalkyl substances in the areas of Environmental Fate and Transport, Analytical Chemistry and Monitoring, Remediation, Toxicology and Epidemiology, Replacement Chemistries, and Risk Assessment and Policy, we encourage you to submit your abstract here<http://igwmc.mines.edu/conference/Fluoros/abstracts_fluoros.html> now. The poster abstract submission deadline is March 1.

Building from the groundbreaking FLUOROS 2005<<http://www.chem.utoronto.ca/symposium/fluoros/welcome.htm>> meeting organized by Scott Mabury in Toronto, FLUOROS 2015 has already lined up the following invited speakers and discussion leaders (with more additions to come in the near future):

Lutz Ahrens, Swedish University of Agricultural Sciences
Jonathan Benskin, Stockholm University, Sweden
Sue Chang, 3M
Ian Cousins, Stockholm University, Sweden
Jia-Yin Dai, Institute of Zoology, Chinese Academy of Sciences
Amila de Silva, Environment Canada
Tony Fletcher, London School of Hygiene and Tropical Medicine
Andrew Hartten, DuPont
Guibin Jiang, Chinese Academy of Sciences
Robin Vestergren, Stockholm University, Sweden
Christophe Schulte, Federal Environment Agency, Germany
Mark Strynar, U.S. Environmental Protection Agency

If you know that you will be attending FLUOROS 2015, we would also recommend that you go ahead and register<<https://commerce.cashnet.com/cashnet/selfserve/storehome.aspx>> for the meeting, as early bird registration will end on March 15. Please note that students will receive a >50% discount on their registration. Students also presenting posters may be eligible for additional support through the student poster competition.

Additional information on the meeting can be found here, and we will be updating the website with the final list of speakers and a detailed schedule<http://igwmc.mines.edu/conference/Fluoros/fluoros_schedule.html> once they are finalized, so please check back often.
We look forward to seeing you in Colorado this summer!

Sincerely,

The FLUOROS 2015 Organizing Committee

Chris Higgins, Colorado School of Mines, Chair
Robert C. Buck, DuPont
Rula Deeb, Geosyntec
Jennifer Field, Oregon State University
Guibin Jiang, Chinese Academy of Sciences
Thomas Knepper, Hochschule Fresenius
Paul S.K. Lam, City University of Hong Kong
Chris Lau, U.S. Environmental Protection Agency
Andrea Leeson, Strategic Environmental Research and Development Program
Scott Mabury, University of Toronto
Derek Muir, Environment Canada
Geary Olsen, 3M
Ting Ruan, State Key Laboratory of Environmental Chemistry and Ecotoxicology
